CABLE UPDATE

There will be another informative seminar on November 30th at 2pm for info and help with the new cable and internet

If you have **not** received your ROKU for your unit yet, please drop by the office to see if we may have it for you.

This message was passed on to us by the Town Manager, Bill Thrasher from PBC EOC concerning damages to personal property:

"At this time there has been no FEMA Individual Assistance designation for Hurricane Nicole and damages on individual properties currently do not show where we would get any such designation. In the event there is non-profit resources or support forthcoming, we will provide you this information as available.

Not knowing the details of this property, I just felt it important to note as a point of clarification, traditional FEMA and non-profit assistance is only provided to permanent residents and not second homes. Should you need any additional information, please feel free to contact our office anytime (561) 712-6400

Mary Blakeney, FPEM | Director | Division of Emergency Management"
