--------------------	----------------------	--

FRIDAY

Trash Pickup	Early Morning	
Water Aerobics by Tape	9:30 a.m.	Pool

If you have anything that needs to be included in the Bugle, please email, 225 words or less, by Thursdays at Noon to brinybugle@gmail.com.

For any Briny assistance, call the office **(561) 276-7405** or email:
brinyassistant@gmail.com (Sharon) brinybookkeeper@gmail.com(Cindy)
brinybugle@gmail.com (Mary) brinybreezesgm@gmail.com (Michael)

***The office will be CLOSED Monday 9/6
in observance of Labor Day.***

Mailbox Keyes

We are strongly suggesting that you get your mailbox keyed before the season starts. It will make your life so much easier ☺ not to have to fool around with a combo. The cost is \$40.

Did you know?...

Did you know?... you can go online to get your Palm Beach County 2021-2022 Proposed Tax Bills? Yes! Go to <https://www.pbctax.com> to get a copy. You should also go online to get your AT&T and FPL bills too. Their websites are: <https://www.att.com> or <https://fpl.com>

Did you know?... You should NOT prop open access doors or gates! This defeats the purpose of the access badge system. Stop to think, what if a small child or animal were to get into the pool area if the gate was propped open? Please be careful and considerate! Make sure gates and doors are closed behind you.

The ENTIRE 5000 North Ocean Boulevard Briny Breezes building is going to be tented over the weekend of SEPTEMBER 24th.

THIS INCLUDES THE OFFICE / THE PHARMACY / THE GYM / THE COMMUNITY CENTER AND THE LAUNDRY ROOM.

EVERYTHING WILL BE CLOSED WITH ABSOLUTELY NO ACCESS !!

STARTING FRIDAY 9/24 ALL DAY UNTIL THE AFTERNOON OF MONDAY 9/27.

Mail will be distributed as soon as we get back to the office.

If you think you might be expecting anything important in the mail; especially medication & such, be sure to have everything sent before that weekend or after.

You will not be able to do laundry or work out.

The Pharmacy will be closed, please make necessary plans with them if needed.

VIOLATIONS ~ WEEDS & TRIMMING around your unit must be managed by you, the shareholder, 12 months a year. Not just during the season but all year long. Please be sure that your caretaker is doing this, or you may receive a phone call, email or violation letter. A good number of you received violations recently and we are extremely grateful at the quick response and action taken.

In Memorium

Cynthia Nye B2, passed away peacefully on Aug. 25, 2021. Cynthia and Herb have been long-time Briny snowbirds. She was introduced to Briny by her parents and grandparents. Cynthia LOVED Briny, her friends and many activities especially the pool, bridge and the library. Thank you to all her friends who sent cards & notes and called during her illness. Your kind words really lifted her spirits. A full obituary can be read at www.brucker-kishlerfuneralhome.com.

Library News

New Books:

In memory of Paul Ruopp from Ruth LeBlanc: **The Hill We Climb: An Inaugural Poem** by Amanda Gorman. This poem reminds us of what we have been able to do and what is possible. Delivered in a way that is reflective as well as forward looking, we can see that together there are still great things to achieve---if we allow ourselves to do so.

In memory of Ken Reeves from Ruth LeBlanc: **Hail Mary** by Andrew Weir. A lone astronaut must save the earth from disaster in this incredible new science-based thriller from the number-one New York Times best-selling author of *The Martian*.

In memory of Len D'Errico from Ruth LeBlanc: **Falling** by TJ Newman. If *Falling* weren't about a plane hijacking, this would be the perfect book to read on an airplane—captivating, thrilling, and packed with nonstop action. Pilot Bill Hoffman is about to take off on a cross-country flight when he receives a call from his wife's phone. Except the person on the other end isn't his wife—it's a man who is holding his wife, son, and infant daughter hostage.

Bookmobile: August 25, September 8 & 22. 1:30 - 2:00

Briny Baubles

During the Pandemic, did you use your time going through your jewelry drawer? Did you set aside your unwanted gems to take to Briny? Do you remember where you put them? This notice is to remind you to look for them. Besides the gems we accept scarfs, hair items and unused cosmetics. I will return mid-October and hope to see many of you this season. Drop your donations off to L-201. Joanne Long

NEWS FROM THE TOWN

The Town of Briny Breezes has scheduled the replacement and the relocation of the water main presently located alongside the seawall in District Four. Once permits are issued, work will commence. The construction phase will impact water services and parking for residents on Heron, Ibis and Mallard Drive and will involve excavating and repaving portions of the street. Any damages to the pavement or grass areas will be repaired by the contractor. Every effort will be put forward to minimize any disruption to your quality of life. For further information please call Town Hall at 561 272 5495.

REMEMBER THE KING TIDES LAST YEAR? Here's some useful information to be prepared:

What is a King Tide? A King Tide is a higher-than-normal tide that typically lasts about 3 hours. King Tides occur annually and predictably, in September through November in West Palm Beach. King Tides may cause residents to experience "sunny day flooding" where a street or other areas will temporarily become flooded when it is not raining.

Tides occur as a result of the moon's gravitational pull on our oceans. The height of tides depend mostly on where the moon is in its 28-day orbit around the Earth and on every 14th day, the moon and the sun line up with the Earth, creating a spring tide. That's why you can expect to see a spring tide on the same day you observe a full moon or a new moon! Some spring tides are higher than others based on how close the moon is to the Earth at that time.

In Florida, king tides are generally experienced in the fall, when other seasonal factors like currents and temperature bring sea levels to their highest for the year. The exact timing of the highest tide is influenced by local factors such as water temperatures, rainfall, storms, and variations in ocean currents.

Where should I expect King Tide flooding? High water levels caused by King Tides can cause flooding on streets or other areas near waterways and the coast. In addition, areas of the City at low elevation that are not along the intracoastal may also experience flooding during King Tides.

When should I expect King Tide flooding in 2021?

- September 9-11
- October 5-11
- October 20-21
- November 3-9
- December 2-7

Other weather conditions may impact the timing and severity of King Tides – for example heavy rains, tropical conditions including higher winds and waves may cause higher than expected tides with longer durations. Be prepared to see local impacts during the week surrounding these dates.

Additional tide and water level information can be found by visiting the [NOAA Tide Prediction](#) webpage.

King Tide Safety Tips

- Floodwater may contain unseen hazards such as trash and pollutants picked up from the environment, pets, wildlife, broken glass and other debris. Do not enter floodwater and do not allow children to play in floodwater. If you or your children come into contact with floodwater, be sure to clean skin with soap and hot water.
- King Tides can be observed 1.5-2 hours before and after peak times.
- Driving through floodwater is not advisable. Do not drive through floodwater as it may be deeper than it appears, and unseen debris could cause flat tires.
- Do not park your vehicle in low lying areas. Vehicles that have come into contact with floodwater should be checked and cleaned.
- Boaters should be aware that King Tides can cause lower clearance levels than normal under fixed bridges.
