Board of Directors

Message from the President *Steve Fair, President*

While we are in the midst of the COVID-19 Coronavirus Global Crisis, I personally want to thank all of our residents who have adapted to the needed restrictions to prevent the spread of this deadly virus. Although we had a few scares of the virus, to the best of my knowledge we have not experienced anyone succumbing to this virus in our community. In the Alva area we have had at least five people who have tested positive for the virus. The restrictions and closing of our amenities were difficult decisions our Board had to make, but they were the RIGHT thing to do. While the spread of this virus is possibly declining, now is NOT the time to let our guard down. We are in constant contact with our government agencies and when they feel it is safe to do so, then we will we start to lessen our restrictions and open our amenities with possible new rules for their use. Thank you to all for your understanding and patience during these trying times. Many of our seasonal residents will start to return to their northern homes and might find additional restrictions and quarantine schedules when they arrive home. Please follow your state's guidelines and stay safe. We want to see you again next season!

I also want to thank our staff for keeping our village operating as close to normal as possible. Although we are an "at-risk" population they have tirelessly worked without interruption for us. They are also taking additional precautions to prevent them from bring any exposure from outside our park. Thank them for their service when you see them, but remember social distancing, no hugging!

A lot of our long-term projects might have been delayed by the virus, but we expect many to be worked on this summer. This will include the upgrade to the water system storage tanks, new fencing around the dumpster area, and possibly the final step in getting our seven acres recreational area approved by the county. We will keep our residents updated on these projects throughout the summer and fall.

That is all for now, STAY SAFE!
