Unit Owned: Lot #333

Office (305) 828-5307 Ext 100

Cell (786) 253-9195

To Residents and Administration:

I am interested in becoming a Board Member of Outdoor Resorts at Long Key. I have been a longtime owner and active member of our community. I owned lot #168 for over 14 years and then have been at Lot# 333 for about 5 years. Previously I rented in the park and visited with active owners. In over twenty years, I have seen the park go through its changes and have appreciated the progress we have made as a community. I have always wanted to be a part of its leadership to help to continue the progress as well as avoid the pitfalls that are encountered in a community like ours. I am a General and Engineering Contractor Statewide and have run our family business for over twenty years. We specialize in underground utilities, paving, concrete and specialized civil work. This experience gives me great insight into many areas the community deals with that can be of Benefit to the Board. I have Bachelors in Engineering and many other specialized certifications in the construction industry. I am active Board member of the Construction Industry Licensing Board and the Citizens Transportation Advisory Council. These appointed positions have also given me insight and knowledge on the proper mechanics and rules any Board should follow. I am fluent in English and Spanish which aids in the communication of most of our residents. Most importantly I am a father of two children that have been raised in ORLK and their safety and the safety of all our residents is of utmost importance to me and my family. If you allow me to serve on your board by voting for me you will be represented well. Our interest in the community and our properties will continue to prosper if I am involved in its leadership. Thanks you in advance for your time and attention.
