

BARTLEY WILENSKI

Platform and Goals. I am proud to say that the 2019 Team is working hard at solving the problems which are facing our community. A community must strive to improve the quality of the owners lives and increase the property values. This is accomplished by having a committed board leading and making wise decisions for the community. The leadership of the 2019 board worked very hard to provide an atmosphere and cooperation for this to happen. A very strong effort was made through open communications with board members, owners, and staff. The issues of the bridges, boat ramp, bathrooms, weed barrier etc. are in progress

Sue and I are full time residents of ORLK. We started as snowbirds in 1997 and purchased in 2013. **This is our home.** Teaching was my profession and passion. I was employed as administrator and teacher in the same school district where I taught 13 different courses including, law, accounting, and leadership. A 47-year resident of Westhampton Beach, I coached football and wrestling at all levels from little league to high school, was an active volunteer fireman, officer in the local veteran's athletic association, served as the mayor of the village, and was involved in many other community organizations.

This will be my third term on the Board. I have served as Hearing and Fining chairman and continue to assist in rewriting the rules so that they are black and white and not grey and enforceable. I have had stewardship of the store, lottery, communication, and marina. **My entire life I have served the communities where I live.**

EDUCATION:

Long Island University-Masters in Business Administration
Bloomberg University-BA/Accounting and Education
